We all want to Transform India, but the first step towards doing it is Transforming the People. We have the world's largest youth absorption, so we desperately need to create more jobs.

"India needs entrepreneurs."

From Director's Desk >>

"Robust mentoring programs are needed. That means looking for ideas as per market needs. Seed funding comes next. This is essential for innovative engineering start-ups ready with prototypes for industry linkage on a perpetual basis."

Dear Patron,

Greetings from CEED!

Chitkara University Centre for Entrepreneurship and Education Development was formed on 15th May 2016. We came active with our events in May end 2016 with our first major event Startup Weekend. This three day event conducted at our sprawling campus at Chitkara University marked the beginning of entrepreneurship development and awareness at Chitkara University. Over 100 students from various streams participated in this Internationally acclaimed business plan competition. In a short span of 11 months we have been able to conduct over 30 events and sensitize over 4000 students on Entrepreneurship as an alternative career. With constant mentoring programs and visits of noted Industry Mentors, we have been able to set a base on entrepreneurship development at our Campuses and at our Startup Incubator in Chandigarh, where we host over 35 Start-ups.

I thank each and every one who has helped us build CEED. We specially thank the Chitkara University Management for having faith our abilities. I and my team thank team CURIN to associate with us and support us.

Looking forward to a great next year, 2017-2018.

Best Wishes,

Sumeer Walia

>> ABOUT CEED

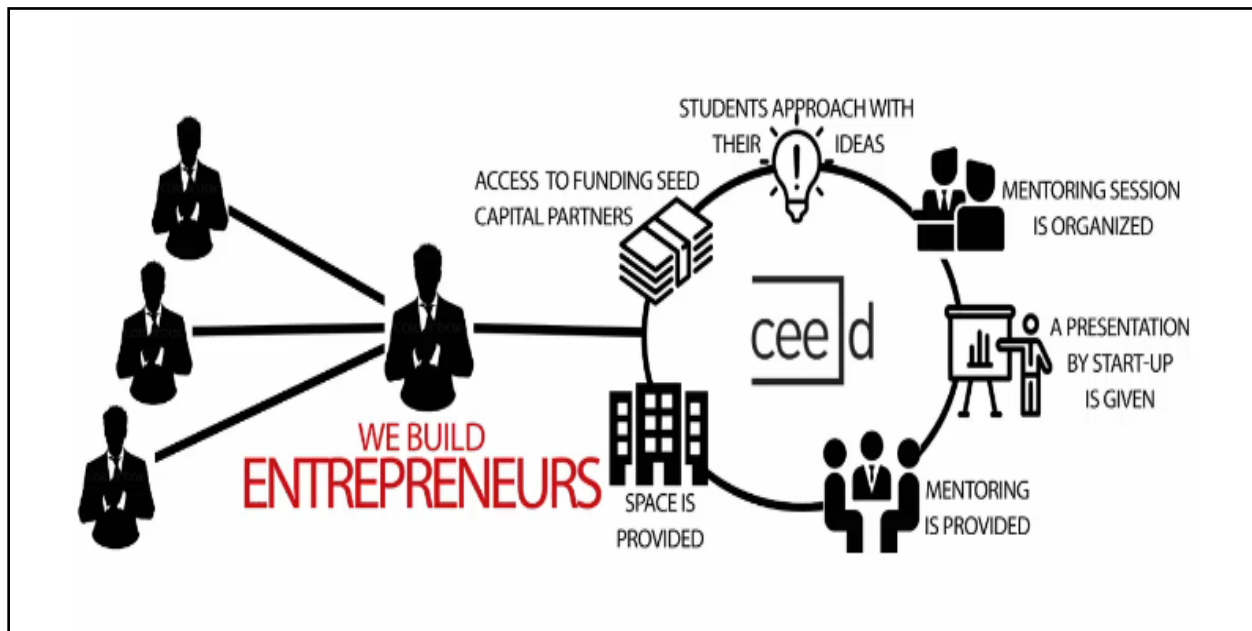

We all want to witness India- as a Renewed Nation. Our country has three factors going for it: the world's largest youth absorption, the hyper-aspirations of its youth, and their edginess with comprehending their goals. India needs to create more jobs, India needs more entrepreneurs. We need to remove barriers for entrepreneurs. AirBnB as an example of a company reduces barriers for potential hosts and guests to contact each other and rate one another, thus building a virtuous cycle for business – this model offers a lot of learning for the Indian business ecosystem. Chitkara University Centre for Entrepreneurship Education & Development (CUCEED) has indeed imbibed this rhythm of igniting young minds to nurture the Nation's vision of STARTUP INDIA-STAND UP INDIA. The journey has just begun with firm footholds to conquer the plethora of opportunities wherein students, faculty, alumni and community entrepreneurs get the belongingness of a company.

>> OUR VISION

CEED is enthusiastic to evolving vibrant, viable, principled and socially accountable entrepreneurs through an all-inclusive slant of global entrepreneurship platform including entrepreneurial way of discerning, training and constructing confidence for the future members of our society.

The members through a real-world and hands-on approach to wisdom cultivate amongst themselves critical entrepreneurial performances and attitudes, advance essential knowledge and skills, and are able to discourse everyday problems faced by the community.

>> CEED AIMS TO FOSTER A WHOLESOME ECOSYSTEM FOR START-UPS

>> CEED CREATES VALUE: THIS IS HOW CEED OPERATES

STRUCTURED MENTORING PROGRAM

Mentoring increases companies odds of success. We understand the journey and advise accordingly

FOCUS ON STUDENT START-UPS

The idea is to encourage innovation and creativity there is no time and age to build an idea, so you can start early

FOCUS ON INDUSTRY NETWORK

The notion is to foster continuous and sustained engagement between large corporates and innovative technology ventures. We connect the startup to industry leaders for better exposure and knowledge to build their business.

PROVISION OF CEED FUND

Each year, CEED considers and screens the student startup for early stage and SEED money to motivate the startup and its idea.

PROVISION OF SUBSIDIZED INCUBATION SPACE

We help your startup to create, develop and design by providing an office space, where you and your team can brainstorm and work together as one unit. We have a physical co-working space for start-ups near Chandigarh-IT Park

FOCUSED ACCELERATION PROGRAM

We help the growth and development of entrepreneurial talent in youth. Acceleration program equips young start-ups with the tools and skills required to start and grow their successful business.

Entrepreneurship @ Incubator >>

>> CHITKARA INNOVATION INCUBATOR

- Chitkara Innovation Incubator aims to foster innovation and entrepreneurship.
- State-of-the-Art Incubation Space of over 16,000 sq. ft. located at just 1 km distance from Rajiv Gandhi IT Park, Chandigarh.
- A Startup Family of 32 dynamic tech start-ups who actively engage with each other to share success stories, failure lessons and sometimes, long-lasting friendships.
- Regular events that enhance the entrepreneurial skills of our startup community.
- Government recognized TBI (Tech Based Incubator).

>> CEED SUPPORTED INCUBATED START-UPS

**32 +
Start-ups**

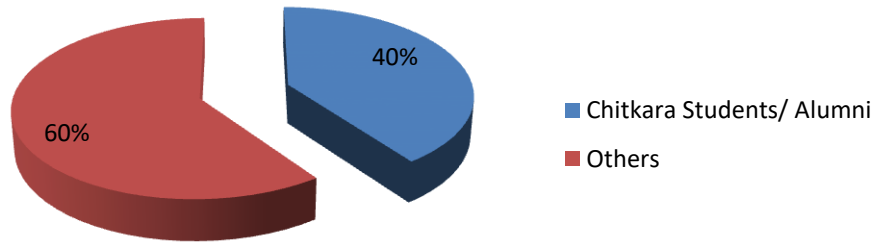

(Tech Based Incubator). This itself is a milestone to help & motivate over existing and aspiring start-ups.

The incubation houses 32 early stage Start-ups, these are diverse in nature. From IT, Engineering, innovation, travel, Ed-tech, Media, Content, Branding, Design, Animation, one can find a wonderful work culture at this design savvy, vibrant, informal, creative ecosystem.

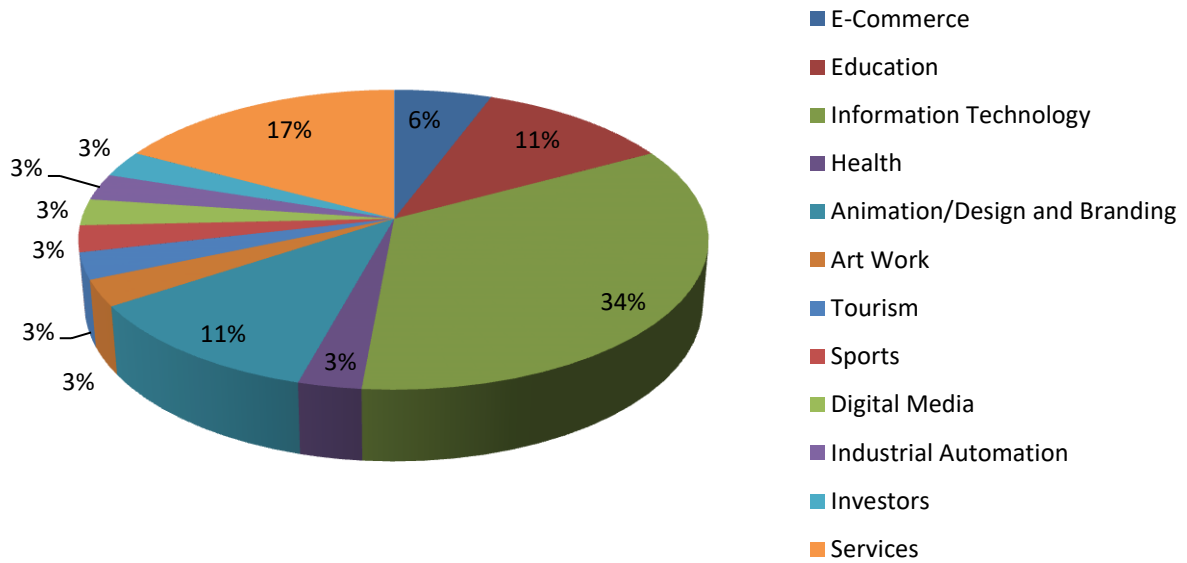

Chitkara Innovation Incubator aims to foster innovation and entrepreneurship. We have incubated many start-ups the details of them are mentioned below. We are a Government recognized TBI

The infographic is set against a dark wood-grain background. At the top left is the logo for CHITKARA INNOVATION INCUBATOR FUNDATION. At the top right is the logo for cee|d CHITKARA UNIVERSITY centre for entrepreneurship education and development. Below these is a red banner with the text 'OUR STARTUPS'. Underneath this banner is a grid of 28 startup logos arranged in four rows of seven. The logos include: trideal.in, SchoolPad, yellowcursor, MWP, IDEAS EDGE.COM, chalkpad, ManpowerGroup, it^matic, YOUCFRE, IndianWeb2, ComfyTap, Scribble Monk, outgrowmystudy, Nipal, Universal, Logolize, TECH FINE, UNSEEN ERA, Design Coolie, and another UNSEEN ERA logo. Below the grid is another red banner with the text 'ECOSYSTEM PARTNERS'. Underneath this banner is a grid of six ecosystem partner logos: CHITKARA BUSINESS SCHOOL, CURIN, CHANDIGARH Angels Network, can, CHANDIGARH METRO, and TE.

Start-ups @ CIIF

Diversified Start-ups @ CIIF

>> OUR COMMUNITY PARTNERS

>> Incube8er, Ludhiana

Regional Entrepreneurs often meet at Incube8er, a new-found space for budding start-ups in Ludhiana, a city which is gaining momentum in the startup circle steadily. The purpose behind this Meet is to Explore Future Opportunities within the Ecosystem.

>> T-Hub, Hyderabad

One of the largest incubators funded by the Government of India has recently joined hands with Chitkara University to foster entrepreneurship across North India. The startup ecosystem at Chitkara has also gladly opened arms to welcome this move by

the incubation giant of India. More than 40 aspiring entrepreneurs and senior faculty from Campus attended the introductory session to Yes-Fintech accelerator program (an initiative by Yes Bank and T-Hub).

The accelerator program offers in abundance technology expertise, resources and opportunities for start-ups in the initial phase, and we thank

Mr Phani Marupaka from T-Hub for sharing his knowledge and quality mentorship that this program offers to emerging start-ups.

>> Happy Friday's (29th July, 2016)

'Happy Friday' is a fortnightly informal engagement event that involves fun events, breakthroughs, with over 30 CEO's and Co-founders from our vibrant ecosystem getting together over coffee and snacks.

Chitkara Innovation Incubator welcomed 9 new start-ups in its first Happy Friday event on 29th July, 2016 at the buzzing hub of Chitkara Innovation Incubator and our Budding Startup "The Friends Bench Cafe" had volunteered and hosted a Live Cuisine along with Live Music at the Incubator.

On March 3, 2017 in the *Happy Friday* event our Health expert Mr. Manuj Nagpal shared the secret of his fitness by giving health tips and healthy bites to the Incubates at the Chitkara Innovation Incubator.

He worked in a live kitchen and cooked 2 delicious yet healthy recipes for the incubates which were quick and easy to make with health as its main quotient.

>> Entrepreneurship Knowledge Series (Sep 3-4, 2016)

A two day Entrepreneurship Knowledge Series program started on 3rd September , 2016 at the Chitkara Innovation Incubator in which more than 35 members from variant domains came together to share their experiences and knowledge with each other for impactful results. The program had a great start with the knowledge sharing session on how to create a real product and startup addressed by Kunal Nandwani, Founder & CEO, uTrade Solutions.

The programme had a wonderful ending on its second day on September 4, with the rise of possibilities in tie ups amongst the group mates, partnerships, knowledge transfer, discussions, team building solutions, patent ownership and transfer opportunities, new friendships and a lot more.

>> Just Candid: Entrepreneurship Knowledge Talk series (28th Sep, 2016)

Just Candid is an exclusive in-house initiative by Chitkara University to foster entrepreneurship culture and accelerate an entrepreneurship knowledge in our ecosystem. Interview is done in an informal setting over a cup of coffee at The Hyatt Regency (Hospitality partner) where young entrepreneurs come and share their journey, knowledge and advise the youth and emerging entrepreneurs.

The First episode was Inaugurated on 28th September, 2016 at The Hyatt Regency by the Dr. Madhu Chitkara, Pro Chancellor, Chitkara University and also an inspirational women entrepreneur of the region.

Other Entrepreneurs who shared the screen were

- Mr. Ankit Bhateja, Founder of Xovian Research and Technologies
- Mr. Salman Ansari, Co-Founder of Itmatic
- Mr. Dan Sandhu, Chairman & CEO, Digital Assess
- Mr. Oliver Grand Homm, France
- Mr. Anil Chhikara, CEO Marco Polo ventures
- Mr. Suhas Misra, Co-Founder Paper Boat Drinks
- Mr. Sameer Sharma, Vice President, Littleapps.in
- Mr. Kunal Nandwani, Founder & CEO at u-Trade solutions

>> My Story Session (7th Nov, 2016)

'My Story Session' is a monthly informal engagement event that involves candid conversations, ideas, community betterment initiatives and opportunities in business, with over 30 CEO's and Co-Founders from our vibrant ecosystem getting together over coffee and snacks.

Over 29 Start-ups, which are housed at the vibrant Chitkara Innovation Incubator got together on 7th November, 2016 for a newly started CEO networking program "My story session". The inaugural edition's speaker was Abhiraj Malhotra- CEO Schoolpad, who was also the convener of this program.

The second volume of My Story Session concluded on December 7, 2016 with valuable inputs coming from more than 20 CEOs who have their Start-ups @ Chitkara Innovation Incubator. The second edition was facilitated by Mr. Ajay Deep - CEO Chandigarh Metro, and managed by Jugneet Bajwa - Community Manager CEED.

>> Table Tennis Tournament -2016 (23rd Dec, 2016)

Dec 23, 2016 was the day of Finale of the Table Tennis Tournament (singles) which took place at the Chitkara Innovation Incubator with more than 20 participants, and head on matches in knock out rounds. Sabhya singal (Scribble monk) won the title.

>> Expert Talk on 'Startup India Standup India' (4th Feb, 2017)

Major Benefits of Prime Minister Mr. Narendra Modi's 'Startup India Standup India' discussed over coffee with Mr. S M Mustafa.

Over 30 diverse start-ups from all over Punjab attended the 3-hour session at Chitkara Innovation Incubator on 4th Feb, 2017, and surprisingly, the audience admitted that they were earlier not aware about many of the facts about the policy that were discussed. Mr. Mustafa explained the rules and regulations of Startup India Policy and also discussed the hassels that a Startup face while registering in the policy. Many other compliance rules and mandates were discussed with the enthusiast start-ups.

>>THE NEXT BIG IDEA (13th July, 2016)

35 Start-ups
Under One
Roof

CEED successfully conducted an entrepreneurial event THE NEXT BIG IDEA at Hyatt Regency Chandigarh on 13th July 2016 where over 35 Start-ups attended the orientation which further leads to their participation at a mega event. The session was conducted by Mr. Ankur Khera from NEXT BIG IDEA, Mumbai. More than 20 Start-ups applied in the competition

The winners got the chance to go to Toronto and work there for 2 weeks which further opened the doors to the entrepreneurial ecosystem both in India and Canada. Noted Investors from Jaarvis and other independent Investors were also present in the event. This event was collaboratively supported by Hyatt Regency Chandigarh, Chitkara University and HDFC Bank.

>> Start-up Weekend Ludhiana (29th July, 2016)

The poster for Startup Weekend Ludhiana 2016 features a light blue background with faint lightbulb icons. At the top left is the Chitkara University logo. In the center, the 'InCube Accelerator' logo (a 3D cube) is displayed above the text 'InCube Accelerator Presents'. To the right is the 'Startup Weekend' logo with a beaker icon. The main title 'Startup Weekend-Ludhiana' is prominently displayed in the center. Below the title, the venue 'New Seminar Hall, Sri Aurobindo College of Commerce & Management Ludhiana' and the dates 'Date : 29 July to 31 July 2016' are listed. Contact information for Mr. Nitin Jain (+91 98118-17679) and Mr. Pushpinder Singh (+91 98551-30007) is provided. The bottom section lists partners: 'Incubator Partners' (Chitkara Innovation Incubator, NIFT Ludhiana), 'Mentoring Partner' (cee'd, Chitkara Centre for Entrepreneurship Education and Development), 'Supporting Partners' (Techstars, Google for Entrepreneurs, QuaaR, and another logo), and 'Young Entrepreneurs Network (YEN)'. A red banner at the bottom right states 'This Programme is by Registration & Invitation only'.

>> PROTOHACK Chandigarh (25th Nov, 2016)

On Nov 25, 2016 the code free Hackathon took off with 45 young and vibrant entrepreneurs participating in the 12-hour long 'Business Idea Hackathon'. A mix of people with very diverse skill sets were seen collaborating their ideas with experienced mentors refining their pitches and prototypes throughout the day at the Chitkara Innovation Incubator.

CIS Teams
wins the
Hackathon

Inevitably, not all of the final pitches were winners, but ironically, the team that bagged the 1st prize at ProtoHack Chandigarh comprised of 14-year-old Aashish Raizada and 12-year-old Jeevesh Attrri, both students of Chitkara International School, Chandigarh. Their idea was based on promoting 'Organic Polycs: Bioplastics' as a substitute to plastic. Even the 2nd position was bagged by a student of the same school, 12-year-old Kawin Sharma, whose idea was called 'Active Sharing Adolescent Portal', an app to enable students in sharing their problems with Counselors while maintaining anonymity.

The jury comprised of serial entrepreneurs like:
Mr. Kunal Nandwani - Founder & CEO, uTrade Solutions
Mr. Sameer Jain - CEO, Net Solutions India
Mr. Manvir Randhawa - Founder, MRSG

>> Incube8er Launch @ Ludhiana (26th Dec, 2016)

Eco-system
Partner With
Incube8er

In an effort to expand the Startup ecosystem within Campus, on 26th December, 2016 Chitkara Innovation Incubator joined hands as the ecosystem partner with Ludhiana's first ever Incubator, located in the heart of the city Ludhiana. The spacious facility, headed by Mr. Nitin Jain and Mr. Pushpinder Singh has a total space of 40,000 sq. ft. Their plans are to promote co-working culture among tech start-ups operating within the region.

The launch witnessed some serial entrepreneurs from within Punjab gathering together to grace the occasion with their presence and suggestions to improve the current startup scenario in the city

>> Yes- Fintech, Accelerator Program (2nd Feb, 2017)

On Feb 2, 2017 the startup ecosystem at Chitkara Innovation Incubator gladly opened arms to welcome Mr. Phani Marupaka, Market Intelligence Officer at T-Hub (Hyderabad). More than 40 aspiring entrepreneurs and senior faculty from Chitkara University, attended this introductory session to Yes-Fintech accelerator program (an initiative by Yes Bank and T-Hub).

>> 'connect2effect' Global Hackathon (Mar 10-12, 2017)

Chitkara University in association with Adpreneurs and connect2effect campaign hosted World's biggest ever Hackathon where nine countries connected & collaborated simultaneously from March 10-12, 2017 to crowd fund their next big world-changing Startup! Winning team will get a Chance to give demo @ UN Headquarters, NYC with 1 Year of Incubation Space for a Team of 5 and access to Mentorship from Industry Leaders and many other exclusive benefits. It was a non-stop action with more than 18 Hack hours, an impressive lineup of World-class inspiring Entrepreneurs learning through design and pitch development.

Over 29 teams pitched their ideas in one of the most amazing Startup battles witnessed in India in 2017, hosted at Chitkara International School, sector 25, Chandigarh.

The First position went to Paperless erasable Braille slate by Mr. Kadyian and Dr. Amandeep Oberoi from Rajpura, Punjab. Second and third position was held by Peyjal Purifier from Ludhiana & DogsMart from New Delhi respectively.

The master Jury interacted over a panel hosted by Mentor Mr. Sumeer Walia before the finals. The Jury Comprised of Mr. Anil Chikkara, former Judge at Haywards 5000 Startup TV show, and Mr. Deepak Goel, Mentor at 500 Start-ups. The panelists included Entrepreneurs in Space & Aerospace engineering, Paul Sprinz-Trustee at Influx, UK, Deepak Goel and Anil Chikkara.

The Chandigarh winning team has also now competed in crowd funding and will finally pitch at the New York City.

>> NOVATE 2017 (14th Apr, 2017)

Former CEO, Yahoo India, Serial Investor, pioneer in Digital strategy and a known face in entrepreneurship in India, Sharad Sharma a great contributor to the Indian entrepreneurship ecosystem visited Chitkara University to interact and Judge Inventions created by students of Chitkara University. The University exhibited its Innovators exhibition at their flagship event NOVATE. NOVATE this year was held at EXPLORE HUB, newly built Incubator for student start-ups.

Over 80 hardware and software innovative prototypes were displayed for an internal competition that was judged by Mr. Sharad Sharma, Ms. Manjula Sridhar, Founder ArgByte, Ms. Pratibha Sastry, Founder Innofest and pioneer in mentoring innovative Start-ups across India and Mr. Satish Gokhale, an expert in design thinking and research.

NOVATE awards were presented to the winners by Dr. Madhu Chitkara, Mr. Sharad Sharma, Ms. Manjula Sridhar, Dr. Archana Mantri, Dr. Satish Gokhale and Mr. Sumeer Walia. Cash prize of Rs. 1 Lakh, 50,000 and 30,00 was awarded to the winners respectively.

One of the Start-ups from Chitkara Incubator; SD Fine Arts, honored Mr. Sharad with his portraiture crafted on raw wood.

**80 Innovative
Ideas Pitching
for the WIN**

36 International Delegates Visiting CII

>> Visit of Mr. Fred Walti from US Embassy (18th Oct, 2016)

Chitkara University and Embassy of the United States of America
invite you to a discussion on

Importance of University-based Incubators in Supporting Start-ups
Preparing Students for Clean Tech Entrepreneurship

by
Mr. Fred Walti
President & CEO, Los Angeles Cleantech Incubator (LACI)

Tuesday, October 18, 10 a.m. – 11:30 a.m.
Chitkara Innovation Incubator
MDC, Sector 4, Near Rajiv Gandhi Information Technology Park
Chandigarh

Fred Walti is the co-founder of the Los Angeles Cleantech Incubator (LACI), combining experience as an entrepreneur with his passion for clean technology. In just five years, he has forged LACI into a regional commercialization ecosystem with an international footprint. LACI is now recognized as one of the premier cleantech commercialization programs in the world: ranked as the #3 Global Incubator by the UBI Index of 1200 incubators; the U.S. State Department of Energy has selected LACI as one of their three national incubators; and LACI was awarded the 2014 Startup of the Year by the LA Sustainability Collaboration.

As CEO, Mr. Walti leads the strategic direction of the organization and ensures that it has the resources necessary for success. He also personally directs the LACI's international network, the Network for Global Innovation, which currently has members in 14 countries. Mr. Walti was named to the Techweek100 as one of the most impactful technology leaders in 2014. He received his BA from New York University.

Chitkara University and US Embassy in collaboration held an event on 18th October, 2016 at Chitkara Innovation Incubator to discuss the importance of University based Incubators in supporting start-ups. Mr. Fred Walti, President and CEO of Los Angeles Clean Tech (LACI) Incubator lead the event who was also named to the Techweek100 as one of the most impactful technology leaders in 2014.

>> Social Entrepreneurship with ENACTUS (26th Oct, 2016)

Social
Entrepreneurship
in Action

Chitkara University joined hands with Enactus to foster Social Entrepreneurship in its entrepreneurial ecosystem. In regard to this Mr. Farhan Pettiwala, Head Enactus India visited the Chitkara Innovation Incubator to see its buzzing startup ecosystem along with Mr. V. Ravichandran on 26th October 2016.

An FDP on “Social Entrepreneurship With ENACTUS” was also attended by Dr. Neha Kishore, Ms. Abha Sharma and Mr. Gaurav Kalra from the department of CEED on 25th and 26th October, 2016 at Infosys, Chandigarh. The recourse person of the workshop was Mr. V. Ravichandran in which the participants were sensitized on the vital topics of; why do we need Entrepreneurship? What is needed for entrepreneurs? Need of social entrepreneurs; Recent trends followed in social entrepreneurship; Trends in Social Entrepreneurship; How do we get more students employed? How do we get our students in right job? Impact Assessment; How do we identify true entrepreneurs etc.

>> Visit of students of Aurobindo School (8th Dec, 2016)

On Dec 8, 2016 students of Sri Aurobindo School, Sec -27, Chandigarh, visited Chitkara Innovation Incubator Foundation to take the tour of our happening Startup Hub. The students were amazed to see the buzzing co-working culture right in their city. Accompanied by Ms. Manjeet and the school's Principal Ms. Anjali, the visit was aimed at showing the functionality of Startup Incubators, and the collaborative aspect of co-working.

>> TiE Global Summit 2016 (16th Dec, 2016)

CEED team lead by Director -Mr. Sumeer Walia, Associate Director - Dr. Neha Kishore & Mr Gaurav Kalra along with few Start-ups from the Chitkara Innovation Incubator represented at TIE GLOBAL SUMMIT, New Delhi which took place on 16-17 Dec, 2016 at Hotel Taj Palace.

Team interacted with various Industry mentors from India and abroad including Mr. Kanwal Rekhi - Co -Founder TIE Global and a serial Investor, Mr.Ramesh Raskar from MIT media lab USA.

Many other start-ups , mentors and ace Industrialist were the part of the this 2 day Summit.

>> TiECON Chandigarh 2017 (17th Feb, 2017)

The 'Chitkara Entrepreneurship Ecosystem' showcased with Passion at TiECON Chandigarh on Feb 17-18, 2017 among Top Entrepreneurs, Business Leaders & University Researchers.

Team Chitkara displayed its pulsating ecosystem in style at TiECON Chandigarh being held at Hyatt Regency Chandigarh. Many top bureaucrats and industry experts were explained in detail about the entrepreneurial activities and academic opportunities to

meet & learn from inspiring entrepreneurs at “The Chitkara Entrepreneurship Ecosystem”.

CEED Director, Mr. Sumeer Walia was one of the panelists in different sessions. The event was concluded with Awards Ceremony, wherein KittyBee from Chitkara Innovation Incubator & HumHain from Ludhiana received recognition from TIE Chandigarh.

>> Table Tennis Tournament 2017 (2nd Edition) (21st Apr, 2017)

Chitkara Incubator Start-ups battled at the Table Tennis Tournament 2017 which started with great enthusiasm, zeal & sportsmanship spirit on 21st April at the Incubator. Also joined in two Women players Sushma and Gurjeet kaur who gave a tough fight to their opponents. Out of 20 participants, 4 groups and 40 matches, 8 quarter finalists played the matches.

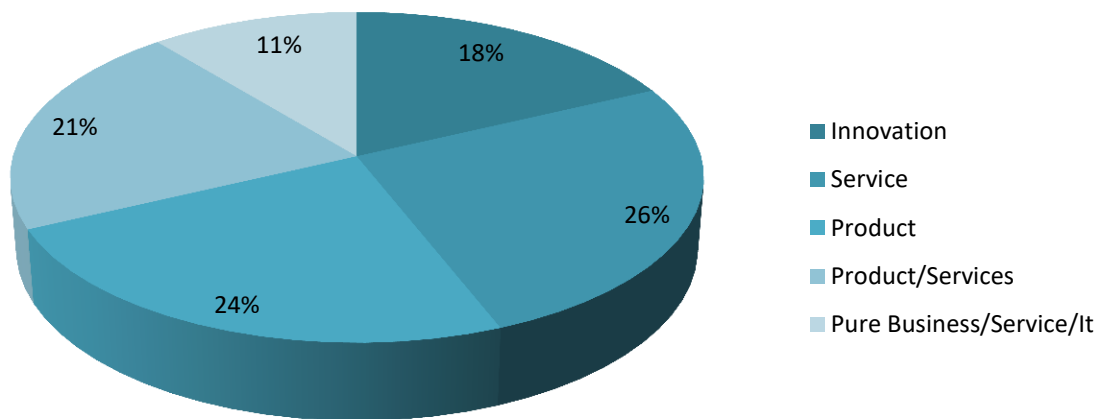

The two finalists were Salman and Sabhya (Champion - 1st Edition) after a tough fight Salman won the title by 2-1.

Outcome:

Nine of the 24 ideas have moved from idea stage to the prototype development stage and are busy working on their prototype. Payjal got patented and is now provided space at the incubator along with mentoring. Who was also the winner at Startup Day 2017. Many other start-ups are ready with their apps, prototypes and are provided seed funds by Chitkara innovation Incubator.

Student Startup Interests

Events Organized

>> Startpreneurs Hackathon (6th July, 2016)

90 numbers of Second year Engineering students of Chitkara University, started their Journey of a Thousand Miles to embrace the dynamic field of Entrepreneurship and to become the future job creators of the region.

Budding entrepreneurs brainstormed ideas to develop a

student their

MVP and at the end of the day evaluation of ideas was

done through a market validation.

>> **STARTUP OPD (8th Aug, 2016)**

On 8th Aug, 2016 Chitkara University launched "STARTUP OPD", an informal and an internal mentoring program to motivate Student Start-ups. Taking a step forward and to provide dedicated mentoring to its student start-ups, fostering an on Campus entrepreneurial ecosystem, Chitkara University launched an impacting mentoring program " Startup OPD". Ace Mentor and Innovator Kunal Nandwani, CEO uTrade Solutions inaugurated the first, Startup OPD on 8th August, 2016 at Chitkara University

He mentored multiple and diverse Startup Ideas today.

>> **SHARE - Showcase, Harp, Appreciate, Research, Exchange (22nd Dec, 2016)**

Faculty and Staff of Chitkara University united on 22nd December, 2016 to share their global experiences at an interactive series called SHARE, an intellectual and social coffee meet to promote opportunities for priceless encounters within the community of learning at all levels: faculty, staff, innovators and students.

>> Talk by Mr. Dan Sandhu (16th Feb, 2017)

Renowned Investor Mr Dan Sandhu shared his Entrepreneurial Journey with Students on 16th February, 2017. CEED organized an interactive Investor awareness session - 'Travels through Business' at Exploratorium. Mr. Dan Sandhu is a very well-known and respected personality in the field of entrepreneurship. He's been instrumental in bringing innovative world class education technology which delivers deeper insight into what learners understand and how they can

best apply this knowledge. Mr. Sandhu had also invested in some radical start-ups like Edurio, Youth4Work & SP Robotics.

The session was followed by a Questions & Answers session, and while the students actively engaged the speaker in some very interesting questions, the speaker too spoke his heart out and motivated the audience on the whole. Team CEED thanked Mr. Sandhu for the wisdom, knowledge & time that he shared with the students.

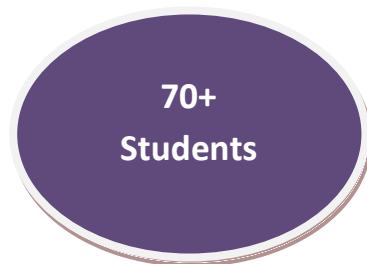

>> Session by the Man behind PumpKart – Mr. KS Bhatia (22nd Feb, 2017)

On 22nd February, 2017 Chitkara University's third year students of Mechanical Engineering were sensitized towards Entrepreneurship by Mr. KS Bhatia, Founder of well-known city-based Startup - Pumpkart.com.

Mr. Bhatia also shared the inspiring story of his journey into entrepreneurship, and how he was self-driven to make it big someday from his teenage. Students loved the candid session a lot, and interacted with the guest actively.

CEED helps budding entrepreneurs in building their ideas into successful and viable businesses.

>> Faculty Visit to Chitkara Innovation Incubator (14th Dec, 2016)

All Thanks to an initiative by our Chancellor Dr Ashok Chitkara, a delegation of 20 Innovators and Heads of Departments from Chitkara University's Campus visited the buzzing Start Up Incubator on 14th December 2016 to join hands in the mission to build more entrepreneurs from within the University.

On this occasion, a tour of the vibrant facility was given to the delegates, and some of the start-ups interacted with the guests and gave a brief of their work profiles. Later, an orientation session was organized by CEED Team, where CEED Director Mr Sumeer Walia presented the Keynote, followed by brief introduction of CEED and Mr Gaurav Kalra, Manager - Entrepreneurship Development at CEED delivered an informative presentation centered around CEED's initiatives and processes. Post orientation, guests engaged in a Q&A round to clarify their doubts and also gave suggestions to maintain swift communication between the Faculty and CEED.

Highly trained, Sharad Dabra chooses the time-labour-intensive, graphic artist Sharad Dabra accidentally discovered his love for sketching. He has his own successful firm now.

Giving wings to their dreams

More and more parents are supporting children who may want to go off the beaten path

ARATI GARG

TRADITIONALLY, parents have been supportive of their kids and their career choices, as long as their choice was to opt for a traditional stream like a becoming a doctor, engineer or a civil servant. Music, dancing and fine arts were good choices as hobbies or for girls to pursue till they 'settled' down in matrimony, but for a serious career choice, these and many other unusual career options that did not come with the assurance of a steady job were a big no. While the perceived security that these jobs bring is still much desired, there is a definite shift towards letting children think and choose for themselves. Parents are coming around to the fact that a changing world requires changing attitudes and their children have aspirations that may not coincide with their own.

What is the most valued thing in life—money, success, fame? Whatever you choose, it should bring happiness. Being happy without nurturing ambitious academic dreams is alright and a lot of adolescents are making it a life choice.

Ditch the drama
Educated parents are letting their kids not focus too much on academics and put their heart and soul into their dreams. Harjit Jindal, a technical advisor with World Bank, might have momentarily thought it better for her son, Jayesh, to pursue engineering but not for long. She says, "Jayesh has always been a go-getter and very independent. Once you see the dedication which he puts into anything he does, you can't think of not supporting his plans."

Jayesh, who had been preparing for an engineering degree abroad, wanted to shift to theatre. An alumnus of Ramjas College, Delhi, he not only cleared the exams to get into the theatre circle in Delhi but also lost 30 kg weight. Jayesh has done TV ads for many major brands like Airtel 4G, Herta and Vendôme 4th and some print ads for Mamma and Skyy. He has worked in many short videos for brands like TVF (the viral fever videos) and NDTV Good Times. With the money saved from his modelling and acting assignments, he bought his own equipment to indulge in his real passion of making films. It's reflected in the short film that he has scripted, directed, edited and acted in, all before he has even finished college. His second film, *Crash Daisy* revolves around two prisoners and their belief about society. Released on YouTube in mid-July, the film got more than 1,200 views in just initial three-four days. An acting school in New York beckons this sprit-

Clockwise from top left: An MBA, Ashish Gupta, who is a DJ, while Jayesh Jindal found a support in his parents, especially his mother Harjit, when he wanted to pursue acting even after preparing for an engineering degree abroad

ed youngster whose parents' support has given him wings to conquer the sky.

Dancing to your own tune

If parents have now opened up to offbeat careers, there were a few parents who, years ago, gave freedom to their kids to make independent choices in life. Ashish Nagpal from Delhi has been a DJ for the last 15 years. Those were times when DJs were unheard of and to think of permitting your child to take it up as a profession would have been tough indeed. He says, "I was lucky to have parents who were very supportive at a time when it was not even popular. As a child, I was a percussionist and had an inherent talent for music. But

being unsure, I did my graduation and MBA, while DJing at night. Despite the grueling schedule, I was happy juggling the two. Without any residence from the home front, I have finally made it to a point where people know me and I can do my own thing." Younger brother Girish is a theatre artist in Mumbai, which just goes to show how family atmosphere and acceptance help talent grow.

Freedom to dream

Beyond every successful individual, there are parents who never doubted their child's dreams, not helicopter parents who would not trust them to do anything right on their own. By letting your

DO WHAT YOU LOVE

A study by Dr David Heller of Tel Aviv University, Israel, and Dr Shoshana Riza of the London School of Economics, UK, studied the role of calling and ability in the pursuit of a challenging career: whether to follow your heart or your head. The 11-year study followed 410 students high school musicians from adolescence. It found that regardless of the musical ability, those with stronger early calling or more passion generated their abilities to be better, making them take up music professionally.

An undergraduate curriculum coordinator at Dr Andrea Weber at West Virginia University says students making career choices are so flustered or what a degree will give them in monetary or other terms that they forget that college is supposed to be a foundation common to all career paths. She says when it is not possible to plan for the entire trajectory of a career, we can focus on what we enjoy and put our energy there.

children think for themselves you give them an important life lesson, the privilege of learning from their own mistakes. While still in college pursuing a B.Com., Angel Gool from Ranchhikuli fell in love with baking. A year and a half later, with more formal training, she has set her heart on being a professional baker and confectioner. This would not have been possible without the support of her parents. Her father says, "We have never pushed our children into anything and it is only when they listen to their heart that they do their best. Kids these days are smart and what Angel has chosen to do is probably a much better option for her than commerce."

Show and tell

However, shifting the onus of permitting children to do what they want is not fully appropriate. Adolescents, who are adamant about a career choice which their parents may not be keen on, need to figure out a way to convince them about their interests. It is up to them to exhibit ample dedication, aptitude and passion, while also explaining what they plan to do with it in future. When parents are satisfied that their children will be happy and not be deprived of the comforts of life, they will have no reason to disagree.

Parents from traditional backgrounds may have some trouble understanding a career that sounds more like a tall tale, but those who have complete trust in their children rise above their own inhibitions and let their children be. Sharad Dabra from Chandigarh is a graffiti artist

and the founder of SD Fine Arts. With no one in the family from an arts background, he still found encouragement from his parents once he showed them what he was capable of. Initially having chosen the time-tested route of engineering, he accidentally discovered his love for sketching. He says, "I was always good at drawing but it was when a senior showed me his sketches that I realized how much better I was. I took up portraits and appreciation poured in. As I got better, orders became bigger and four years into starting it, I was getting paid roughly as much as an engineer. It gave me the courage to give up a well-paying job with an MNC within a fortnight. My company now offers around seven categories of art, including pencil and charcoal sketches, oils and coffee paintings. When I first took up the artwork of a cafe in Jodhpur, my parents understood my urge. This was possible only because art for me was not a crush that changed with time but a constant, like love."

Small town, big aspirations

With the extensive internet reach, big dreams are reaching even the smallest towns. Simar Beshi from Bahikhash decided to pursue journalism, with the approval of her parents. She credits her parent's belief in her and in her approach to her career. Her mother Anveet Kaur says, "I have three children and they all followed their dreams and have never let us down. My other daughter is a flight attendant with Jet Airways. When my children are happy, so am I."

Expert insight

Dr Shobha Sen, Child and Adolescent Psychologist & Family Therapist, has written the book *All you Need is Love: The Art of Mindful Parenting*. The cover of her book sums up her viewpoint: "I accept and love you the way you are. You are unique, you are different and you are you. She feels, "There is definitely a higher level of awareness among parents and in schools. Parents are realising through their own experiences and looking at the world that choices are unlimited. Most schools have career counselling where children are guided towards the right career according to their aptitude. There is a greater realisation that at the end of the day the mark of success is not being a doctor, engineer or lawyer but doing something that you are passionate about. Diverse fields like designing, deep-sea diving, being a chef, opening a bakery etc. might have been unheard of earlier but are becoming quite sought after careers."

Sharad Dabra, CEO, SD Fine Arts

Small wonder and the big surprise

With an unorthodox robotic lab, Robo Champs, Akshay prepares an education module for job creators, instead of job seekers and he finds his first success in a 13-year-old Tushaar Sarin

AMARJOT KAUR

A strong proponent of change in the traditional education system, Akshay Ahuja, 23, undertakes a project, the merit of which lies in its ability to challenge the directly proportional correlation between age and intelligence. And not just that, he, along with Tushaar Sarin, 13, makes science look like a child's play. So, if you are the sorts, who are stuck between the theoretical and practical knowledge of all that has been taught to us in the name of education, well, here's an "out of your school lab" experiment called Robo Champs; and it's quite a success.

So, what is Robo Champs?

"Well, Robo Champs is a Robotics Academy for young minds, and though we

PHOTO: MANJU MAHAJAN

haven't yet started with teaching yet, we have started a project called BYB, which is an abbreviation for build your bot (bot here is a short for Robot)," says Akshay, the founder and director of Robo Champs, who holds an engineering degree from Chitkara University. He informs that the inception of Robo Champs came to him about three years ago while he was interning. "It was a little experiment that I conducted, wherein, 29-year-old engineers were taught the mechanics of making a robot, along with a 9-year-old, and the later nailed it to the extent of becoming the youngest line following robot maker and holds the

record for it in India Book of Records. His name is Aryaman Verma and he hails from Ludhiana," he shares.

Money and the cause

While Robo Champs is a start-up with shoestring budget, they are already making it big with crowd funding. "We charge Rs 300 for 12 hours from students belonging to private schools and for slum children, and government-run schools, its free of cost," says Akshay. In fact, under the BYB project, Robo Champs aims at conducting a workshop on June 31 in Gurgaon, from which they are likely to invite PM Modi. "As many as 20,000 children will be making robots on stage for

The Force Awakens

A huge Star Wars fan, and a student of Vivek High School, Tushaar has made a DTMS (Duel Tone Multi-Frequency Robot) and they are already making a remote-control car for his younger brother, Arney Sarin. "I assemble and use coding language to make these robots. In fact, I have connected the DTMS robot with my phone that moves as you press the key. For instance, if I press 2, the robot will move forth and then when I press another key, it will move backwards and so on," says Tushaar. With an R2D2 and a lightsaber in his collection, Tushaar says that he is now making an auto remote car, but the materials available in Chandigarh are costly, so he outsources them from Delhi. "So, a 9 volt battery will cost you about Rs 40 in Chandigarh, while in Delhi, it is available for Rs 9. Also, the cost of making my own car would be about Rs 500. However, if you buy the same car from a market it will cost you ₹2,000," he smiles.

this project and we are planning to invite PM Modi for this," says Akshay. "Also, we are planning to get the disabled and people with mental issues, like anxiety and anger to enrol for this project. It was surprising how a student with hyper anxiety issues improved with training in robotics. I am looking at making job creators, not job seekers," he adds.

Mr. Naveen Jain, CEO, UNSEEN ERA on winning the Gold medal at 13th National Choi Kwang Do Championship 2016-17

Successful Exit -Little Acquires Trideal

New Delhi, Oct. 13 -- Deals discovery app Little has acquired Chandigarh-based curated deals marketplace Trideal for an undisclosed amount, the company said in a statement on Tuesday. As part of the acquisition, Trideal's co-founders and its core team will join Little.

Incubated in Punjab's Chitkara University, Trideal offers deals across food and beverage, and entertainment with over 1,000 merchants. Operating in Chandigarh, Mohali and Punjab, Trideal claims it gets 7,000-plus unique visitors every month.

Little Internet Pvt. Ltd, which operates Little, raised \$50 million from mobile recharge firm Paytm, SAIF Partners and Tiger Global Management in June 2015. The company provides real-time hyperlocal deals to customers across services like restaurants, movies, hotels, salons, gyms and spas. (As reported in mint ePaper)

Chitkara Incubate Kitty Bee won an award at TIECON Chandigarh (17th Feb, 2017)
