# 3<sup>rd</sup> Annual IPR Workshop

## Make Your Innovative Ideas Patentable

February 29, 2020 | Duration: 9:30AM – 4:30PM  
Venue: Chitkara University, Himachal Pradesh

### CALL FOR PARTICIPATION

New innovative ideas are crucial for development in every field. Protecting new ideas through patents grants exclusive rights to the innovators over their invention.

***Any product, design or process which is new and has commercial value must be patented at very first step.***

So don't put valuable ideas on the shelf or within the hands of others, increase your awareness about Intellectual Property Right (IPR).

The one-day IPR workshop aims at creating Intellectual Property Rights (IPRs) awareness and usefulness amongst the participants from the various disciplines.

Overview of the topic to be covered is as follows:-

- \* Overview on Patents, Copyrights and Trade Secrets
- \* Patent search for Innovation.
- \* Case Studies and Examples of Patented Inventions
- \* How to convert research/ project into Patents.
- \* Best Practices and Patent Drafting
