(57) Abstract :

The present disclosure discloses an apparatus 100 for dispensing of one or more substances, such as, cream, edible colour, molten chocolate, sauce, mayonnaise, and the like, that can be in form of a liquid, gel, and foam, where the one or more substances can be dispensed for icing and decoration of confectionary items. The apparatus 100 can include a container 102 that can receive said substances, one or more dispenser members 108 coupled to the base 106 of the container 102, and configured to, on application of a predefined pressure on the one or more dispenser members 108, dispense said substances. The apparatus 100 can include a pressing member 110 slidably configured with the container 102, and configured to apply the predefined pressure on the one or more dispenser members 108.
