

LiFE Awareness Programme on Waste Management

On September 25, 2025, Chitkara University in Himachal Pradesh hosted the Mission LiFE Awareness Programme in collaboration with TERI EIACP, focusing on waste management practices and attracting approximately 250 students.

The event began with a welcome address by president of the Ecolution Club, followed by a lamp-lighting ceremony involving all dignitaries. The program featured four key presentations: Ms. Pallavi Shukla, Programme Officer at TERI EIACP, introduced the objectives of TERI EIACP and Mission LiFE; Dr. Arun Lal Shrivastava emphasized the importance of waste management practices and highlighted the university's initiatives in this area; Ms. Pratiksha, Information Officer at TERI EIACP, discussed various methods of waste reduction and innovative solutions; and Prof. M. Maheswary, Principal of CUCN, spoke about the benefits of maintaining a healthy lifestyle.

The event concluded with a vote of thanks from Dr. Anand A. Jha, who expressed gratitude for the unwavering support from Chitkara University's management. Overall, the program aimed to inspire students to adopt sustainable waste management practices for a cleaner and healthier environment.
